

ICE SHIELD DE-ICE BOOTS

GET OFF THE GROUND IN ICY CONDITIONS

B/E Aerospace Ice Shield™ De-Icing Systems prepare your aircraft to encounter in-flight icing conditions with the time-tested, original design of Ice Shield™. Featuring a system that is interchangeable with existing de-ice boots and fully compatible with existing air supply systems, B/E Aerospace's FAA STC/PMA approved Ice Shield™ De-Ice Boots provide a faster, better, and smarter way to de-ice your aircraft.

- *Quick & safe removal of troublesome ice from wings*
- *Prevention of ice build-up on props and engine inlets*
- *Simple installation on over 75 aircraft models*
- *Quality backed by B/E Aerospace*
- *Developed with a deep understanding of de-icing technology*
- *Guaranteed 48-hour delivery within continental United States*

B/E Aerospace Ice Shield™ De-Icing Systems include pneumatic wing de-ice boots, as well as electric propeller and engine inlet de-ice boots. And, with their 48-hour delivery guarantee, no-hassle warranty and up to 60% longer service life, Ice Shield™ de-ice boots are faster, better and smarter. So break the ice and get up there with Ice Shield™.
